

NORGES HUS

Nordic Wooden Products

**HIGH-QUALITY
PERGOLAS
DIRECTLY FROM
THE MANUFACTURER**

HIGH-QUALITY PERGOLAS DIRECTLY FROM THE MANUFACTURER

Every Pergola is manufactured at our factory with **great care** and **expertise**, made from dried spruce.

All of our wood is sourced from **controlled cultivation**.

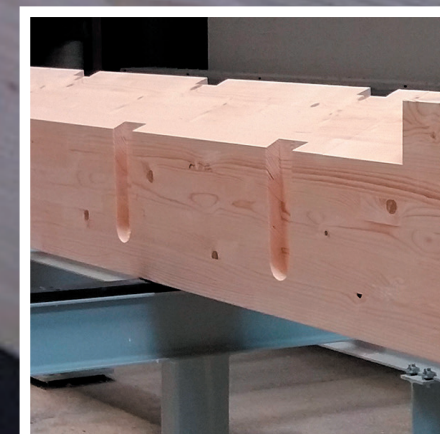

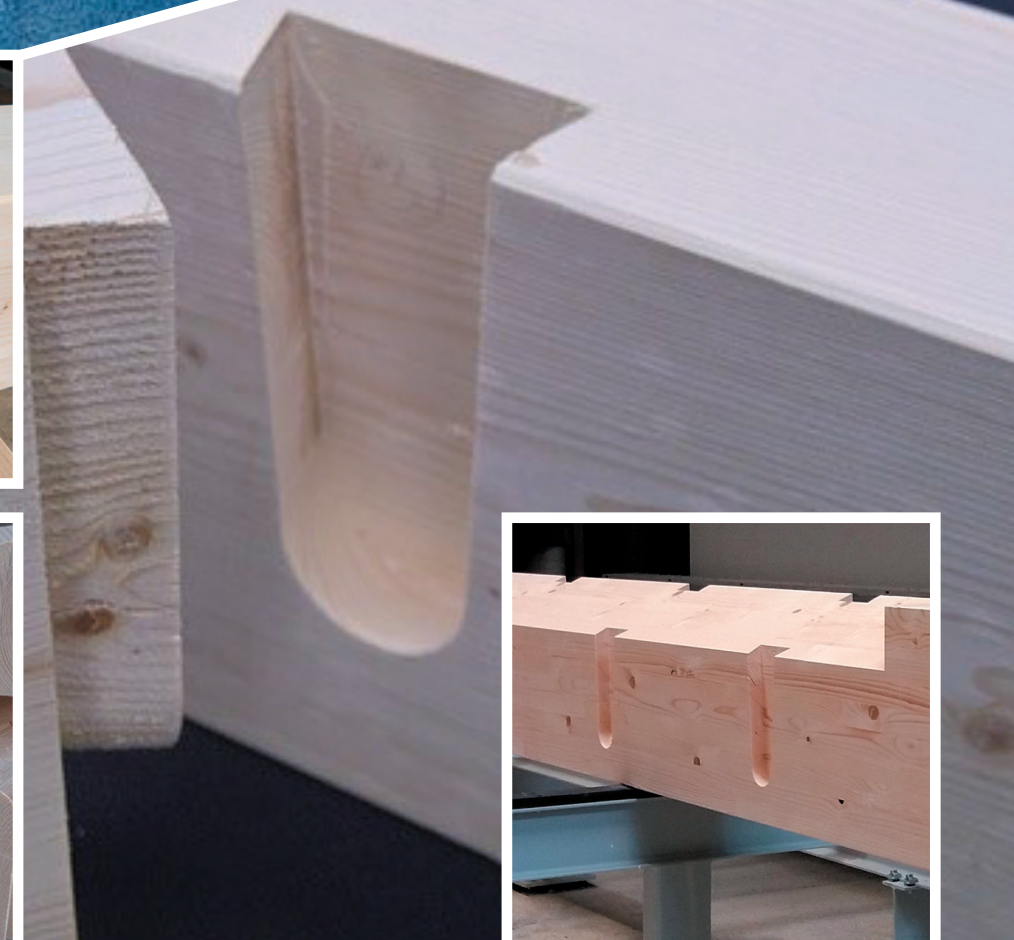

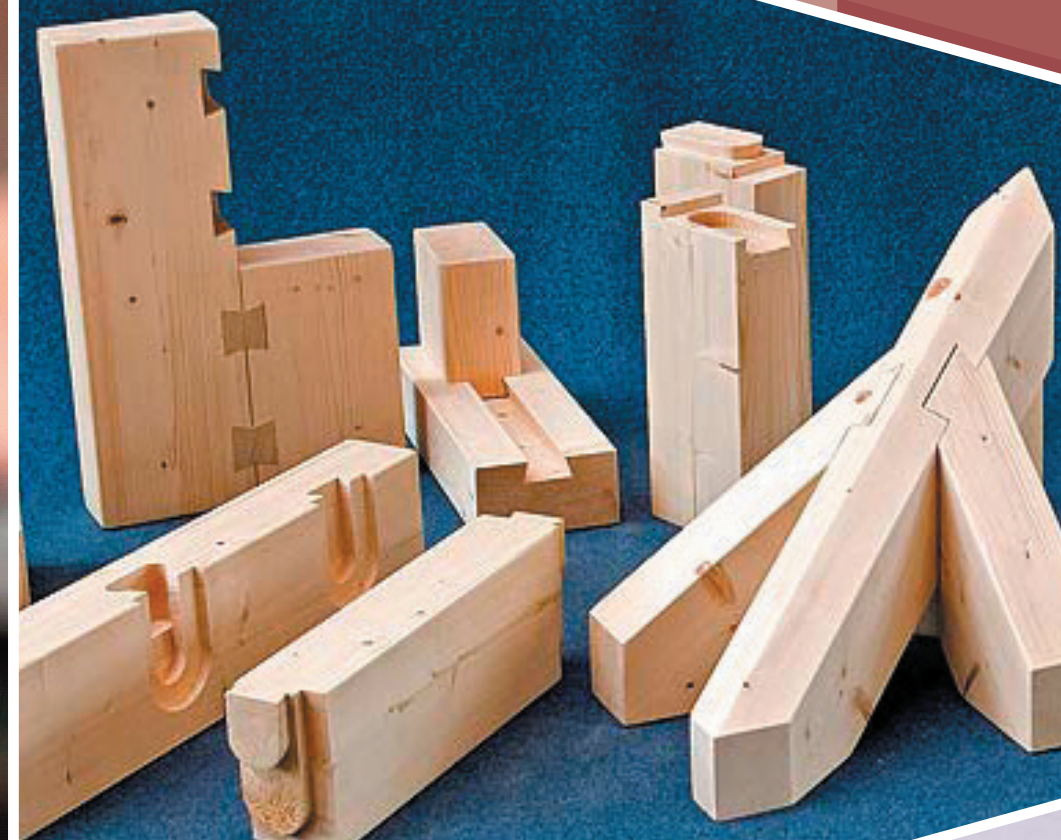

The external inspections, the **continuous internal quality control** and the identifying marks on the timber are all part of a multi-step, overlapping **quality assurance system** that ultimately **guarantees consistently high quality** across all of our timber.

TENOR FIXING SYSTEM

Tenor joints always delivers **visibly high quality** timber. Successfully making use of our industrial quality and maintaining the natural prospects of our product. Achieving higher stability standards, while keeping in mind the visual beauty of the product.

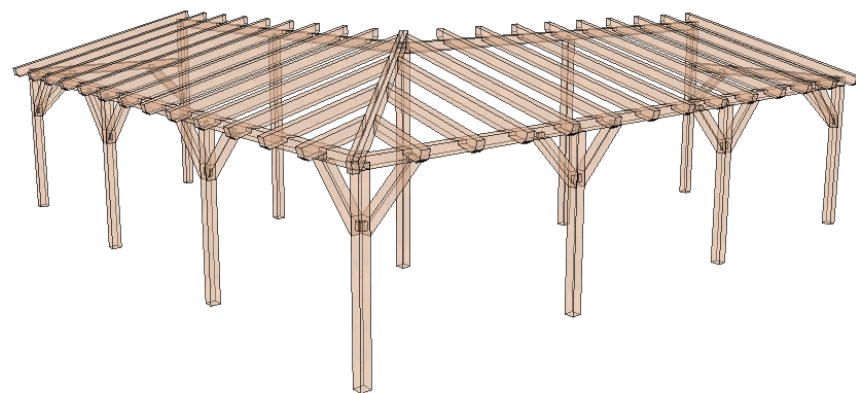

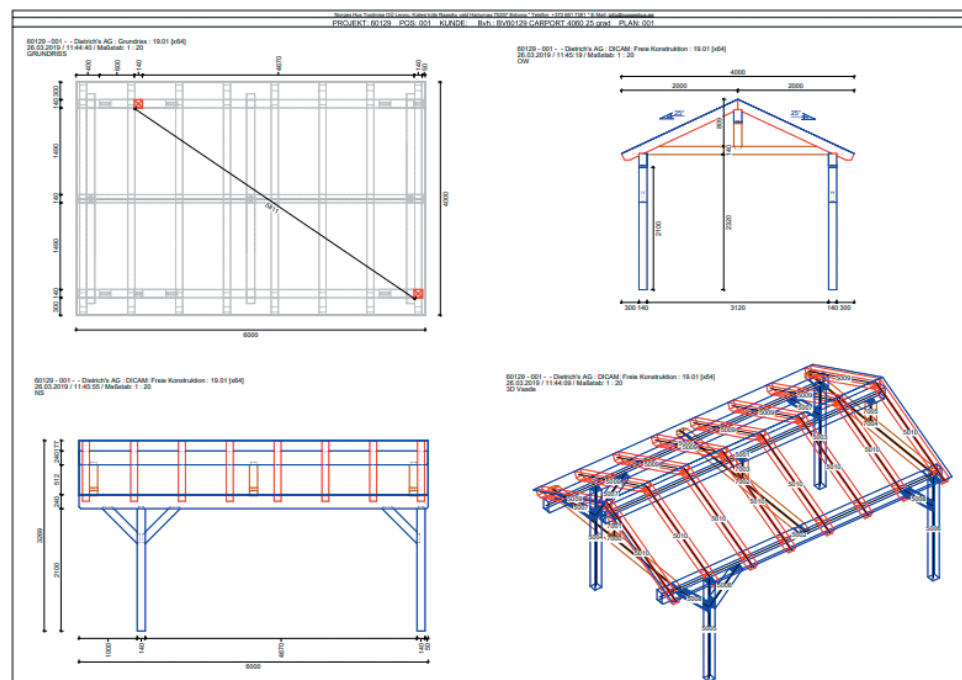

CUSTOM DESIGN AND PRODUCTION

We design and manufacture **according to your wishes**. Our team of engineers support you throughout the process, from planning and verifiable statics to execution.

Calculation, including assembly instructions and professionally made guidance video

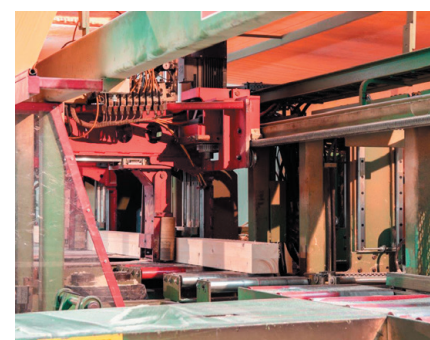

Construction kit with all the necessary tools

Personal drawer assigned for every client.

We take our greatest pride in having the customer in the center of it all. Starting from the selection between multiple roof solutions, paint variants to timber profile engravings.

OUR TEAM

Having more than 10 years of experience in prefabricated house production, indicates that our team is professionally selected. Our CE certifications and our reputation in the Baltic have only come through admirable precision, well selected material and customer satisfaction. We intend to demonstrate more of the Norwegian standards across Europe.

ALWAYS THERE FOR YOU!

We respond to emails and chat messages as quickly as possible, even on weekends. With our series production, we can deliver pergolas in an attractive design internationally.
